

Cases for Phase 2 for all teams:

Conditions:

1. If- else
2. Switch case

loop

- for loop

```
int ct=0;

for ( int i = 0 ; i< 5;i++)

{

    //anything

}
```

- while //syntax while
- Do while //syntax do while

The second case:

Loop + conditions

For example:

```
for ( int i = 0 ; i< 5;i++)

{

    If ( ct < 10)

    {
```

```
Ct ++;  
}  
}
```

You must make all conditions:

- If else without loop
- Switch case without loop
- for loop only
- while only
- do while
- for loop + if- else
- for loop + switch case
- while loop + if- else
- while loop + switch case
- do while + if- else
- do while + switch case
